The U.S. Bureau of Labor Statistics (BLS) cordially invites you and other interested staff to the inaugural Open House for the San Antonio National Compensation Survey (NCS).

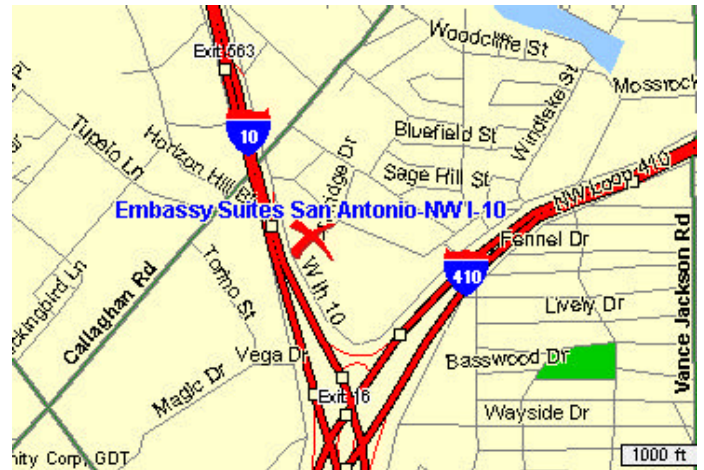

BLS has published a new survey of wages and salaries for the San Antonio area, which includes wages and work levels for numerous occupations.

The Open House will allow the opportunity to discuss:

- Wages for a wide variety of jobs
- The market rate for jobs in San Antonio
- How much benefit costs increased last year
- Whether wages are keeping pace with inflation
- Wages in localities other than San Antonio
- Other data provided by the Bureau of Labor Statistics (Employment Cost Index, Consumer Price Index, Producer Price Index, Employment/Unemployment numbers)

There is no cost to attend. We will have complementary diskettes with Internet links to BLS data, plus free brochures, pamphlets, and BLS publications available as long as supplies last. Come by at your convenience between 11:00 AM and 3:00 PM to visit with our economists who will answer your questions and explain the uses of various BLS economic series. Informative briefings will be presented at Noon and 1:00 PM.
